INTRODUCTION

This paper is designed to give quick access to current information on major elements of life insurance and accidental death and dismemberment insurance provisions in Ontario collective agreements.

Detailed tables on the main provisions, broken down by industry, have been prepared to provide information that will be useful in bargaining situations. For quick reference, the tables are preceded by a summary of their contents.

The information presented was drawn from an analysis of all Ontario collective agreements covering bargaining units of 200 or more employees working in industries other than construction. As of February 1975, when the analysis was prepared, there were 839 such agreements, covering 658,339 employees, on file with the Collective Agreements Library of the Ministry of Labour.

For further information, please call Beth Jess at 965-6101.

LIFE INSURANCE PLANS

An analysis of 839 agreements shows that 778 (93.0 per cent), covering 92.0 per cent of the employees, have provision for a life insurance plan. The 61 agreements with no mention of life insurance benefits are not concentrated in any one industry. These figures do not indicate the full prevalence of this type of benefit, since some employers unilaterally provide life insurance plans.

Employer Contribution to Bargained Life Insurance Premiums
(Table 1)

The figures in this Table refer to the proportion of the premium that the employer pays to provide basic life insurance coverage.

In 60.0 per cent of the 778 agreements, covering 55.0 per cent of the employees, the employer pays the full premium for basic life insurance. In a further 25.0 per cent of the agreements, the employer pays less than 100 per cent of the premiums, particularly in such industries as textile, chemical and chemical products, forestry, education, health and welfare and personal services. In the majority of these plans the employer's contribution ranges from 50 per cent to 90 per cent of the premiums. However, in all the federal administration plans, the employer pays one-sixth of the premium.

The forty-five agreements shown in the final column in Table 1 include plans in which the employer contributes flat sum payments or a percentage of the payroll or payments that vary with the type of employees covered. This final column also includes five agreements in which the amount of the employer's contribution changes during the term of the agreement as shown in the following tabulation.

Changes During the Term of the Agreement in the
Proportion of Life Insurance Premium
Paid by the Employer

Per cent of Premium Paid by Employer

<u>Increased</u> <u>From</u>	<u>Increased</u> <u>To</u>	<u>Number</u> <u>of</u> <u>Agreements</u>
60	100	1
66 2/3	70	1
80	100	2
90	100	1

Amount of Basic Life Insurance Benefits (Table 2)

The figures in this Table refer to the amount of basic life insurance provided in the plans.

In 29.0 per cent of the 778 agreements, covering 48.0 per cent of the employees, the amount of benefit to which the employee would be eligible varies with the amount of his income. Industries in which this provision is more commonly found are paper and allied products, retail trade and federal administration. In a further 18.0 per cent of the 778 agreements, the amount of benefit varies in relation to length of service, sex, marital or dependent status, or a combination of these factors.

In 36.0 per cent of the agreements, covering 28.0 per cent of the employees, the amount of basic life insurance provided is the same for all employees regardless of income, service, or other variables. Just over half of these plans pay more than \$5,000; the remaining pay \$5,000 or less. Almost half (47.0 per cent) of the agreements in manufacturing industries provide the same amount of basic life insurance for all employees, compared with 22.0 per cent of the agreements that have this arrangement in non-manufacturing industries.

The final column in Table 2 includes fourteen agreements in which the amount of basic life insurance benefit changes during the term of the agreement as the following tabulation shows.

Changes During the Term of the Agreement in the
Amount of Life Insurance Benefits

Amount of Life Insurance Benefits, in Dollars

<u>Increased From</u>	<u>Increased To</u>	<u>Number of Agreements</u>
4,000	5,000	1

ACCIDENTAL DEATH AND DISMEMBERMENT INSURANCE PLANS

An analysis of 839 agreements shows that 387 (46.0 per cent), covering 46.0 per cent of the employees, have provision for an Accidental Death and Dismemberment (A.D. & D.) Insurance Plan. These figures do not indicate the full prevalence of this type of benefit, since some employers unilaterally provide A.D. & D. Insurance Plans.

Employer Contribution to Bargained A.D. & D. Insurance Plans (Table 3)

In 73.0 per cent of the 387 agreements, covering 78.0 per cent of the employees, the employer pays the full premium for A.D. & D. Insurance. In a further 17.0 per cent of the agreements, the employer pays less than 100 per cent of the premiums particularly in health and welfare, where the employer's contribution ranges from 66 2/3 per cent to 90 per cent.

The 24 agreements shown in the final column in Table 3 include plans in which the employer contributes flat sum payments or payments that vary with the type of employees covered. This column also includes one agreement in which the amount of the employer's contribution increases during the term of the agreement from 60.0 per cent to 100.0 per cent of the premium.

Maximum Amount of A.D. & D. Insurance Benefits (Table 4)

In 20.0 per cent of the 387 agreements, covering 42.0 per cent of the employees, the maximum amount of benefit to which the employee would be eligible varies with the amount of his income. Industries in which this provision is more commonly found are paper and allied products and retail trade. In a further 24.0 per cent of the 387 agreements, the amount of benefit varies in relation to length of service, sex, marital or dependent status, or a combination of these factors.

In 48.0 per cent of the agreements, covering 33.0 per cent of the employees, the maximum amount of A.D. & D. Insurance provided is the same for all employees regardless of income, service or other variables. Just over half of these plans pay more than \$5,000; the remaining pay \$5,000 or less. Sixty per cent of the agreements in manufacturing industries provide the same amount of A.D. & D. Insurance for all employees, compared with 21 per cent of the agreements that have this arrangement in non-manufacturing industries.

The final column in Table 4 includes five agreements in which the maximum amount of A.D. & D. Insurance benefits changes during the term of the agreement as shown in the following tabulation.

Changes During the Term of the Agreement in the
Maximum Amount of Accidental Death and
Dismemberment Insurance Benefits

Amount of A.D. & D. Benefits, in Dollars

<u>Increased From</u>	<u>Increased To</u>	<u>Number of Agreements</u>
4,500	5,000	1
5,000	7,000	1
8,000	9,000	2
17,000	20,000	1
